SPD Student Testimonials

"Thank you for the great classes, I am having fun with them, how wonderful! These tools and meditations are amazing. After class 6, I was over come with so much joy, it was a little over whelming, I'm still coming down from it."

"When I entered Module 1 I was well into some major life transitions--starting the process of divorce, leaving my business of 6 years, looking for a new job--big, stressful stuff, especially with two kids. The first thing I want to say is I think the tools have played a big role in helping to keep me from getting dragged down into the trenches of stress. One of my favorite tools for that is the sticky rose. When issues flair in the divorce I can use the sticky rose to help reset me to my own frequency, cleaning out those negative thoughts that inevitably creep in. S.M.- Vermont

"Before I started Module One with Cynthia, I was going through a mini-crisis. I just moved back to Vermont with my husband, was trying to start a company, and just felt like my world was turned upside down. I placed myself in survival mode as "my plan in life" wasn't working out as I thought. I was wondering all the time why I was feeling anger or sad, I was putting too much pressure on myself to accomplish things, my relationships with people were not as connected or stable as I wanted them to be, and I was not thinking clearly on decisions I was making.

As I took the journey through module one, it really opened my eyes and heart to what was around me. Life is what you want it to be and you have to truly believe that. I learned the tools needed to slow down!, stop being so serious, laugh and be happy, ground my thoughts and energy, release energy that wasn't mine, build my Aura, connect to my higher self, connect to mother earth, protect myself from other people's energy/ thoughts, and manifest.

It was crazy how things quickly changed - I thought clearly on all my decisions and I had confidence in the decisions I were making. The questions I was going crazy over trying to find the answers came more easy to me and I was took paths I normally wouldn't. The most important thing I re-learn was to love myself and just be happy...life is what you want it to be." K.A.- VT
